New Horizons at Marlborough is delighted to announce the only retirement community in greater Boston with a dedicated wing for the Indian community.

With an anticipated opening in summer 2015, “India House” will initially offer 10 ground-floor units – five two-bedroom suites and five one-bedroom or studio apartments. This strictly not-for-profit venture is a collaborative project between Cummings Foundation and Indian Circle for Caring USA Inc. (ICC) and has potential to expand.

Monthly rates for these modern, newly renovated suites begin at $3,430 (depending upon the size of the unit and whether it is occupied by an individual or couple) and include three home-cooked Indian meals per day, as well as all charges for lodging, weekly housekeeping and linen service, activities, local transportation, water, electricity, heat, air conditioning, cable TV, local telephone, parking, and maintenance. The $30,000 deposit to reserve a unit is 100 percent refundable upon departure, and no lease contract is needed. Furthermore, all residents are guaranteed that there will be no increase in their monthly fee for at least five full years.

As a full-service, full-amenity continuous care retirement community, New Horizons has the ability to support its residents’ future needs through a variety of on-campus programs, including assisted living, Alzheimer’s care, and hospice.
